SUMMARY

Frontend developer with 6 years in the field and a design background I never fully left behind. I started out in graphic design and art direction, then moved into code, so I think about how an interface is built and how it looks at the same time. Most of my work is product UI and design systems in React and TypeScript, built across React and Vue with Storybook and design tokens, and I get up to speed on large, data-heavy products quickly. I also build the AI tooling around the work. I create custom Claude Code agents, Agent Skills and MCP integrations that scaffold components, generate tests, review PRs and keep Figma tokens in sync with code. The repetitive work gets automated; the architecture and the judgment calls stay mine.

EXPERIENCE

Sermes CRO · Frontend Developer

Jun 2025 – Present

Sole frontend on a clinical trial management system (CTMS) · React 18, TypeScript, Vite

- Reworked the frontend architecture early on: a feature-based structure using Domain-Driven Design and hexagonal architecture, keeping business logic separate from the UI and external services.
- Broke the interface into small, atomic components as the base for a design system the team can actually maintain and keep visually consistent.
- Moved styling onto design tokens, kept Tailwind aligned with Figma, and set up a Figma MCP integration so tokens and components don't drift between design and code.
- Built custom Claude Code agents, slash commands and Agent Skills that scaffold components, generate tests and review PRs, automating the repetitive work while the architecture stays deliberate.

Impulsum Studio · Frontend Developer

May 2024 – Feb 2025

- Built and tuned marketing landing pages in Next.js with Contentful and Autotune.
- Rebuilt the onboarding flow on the IH platform with XState state machines, which improved conversion and took load off support.
- Contributed to Composer (cmpsr.dev), an open-source tool for composing components.
- Kept everything covered with Cypress and Jest.

— EXPERIENCE (CONT.)

John Deere · Frontend Developer

Apr 2023 – Apr 2024

- Maintained and extended a large internal platform in TypeScript, React and Redux.
- Improved reliability with Cypress tests and a round of frontend performance work.
- Built responsive layouts with Sass and CSS Modules, and worked with the backend teams on API integration.

Apto Payments · Frontend Developer

Oct 2021 – Nov 2022

- Built and maintained the core of a fintech platform in React with TanStack Query: real-time data, card management, account flows.
- Launched a second platform from scratch in Vue.js, integrating several third-party financial APIs.
- Wrote a cross-framework design system in React and Vue, documented in Storybook and used across both products.
- Set up documentation with Docusaurus and ReDoc, and got a Jest and Cypress testing habit going on the team.

The Seed Squad · Frontend Developer

Jul 2021 – Sep 2021

- Built a CRM from scratch in Nuxt.js and Tailwind CSS, connected to Directus over REST and GraphQL.

EARLIER Marketing & Design Manager (Artecristal, 2019–2020) · Graphic Designer & Photographer (Artesolar, 2018–2019) · Graphic Designer & Illustrator (Wonder Photo Shop · Fujifilm, 2018).

— TECHNICAL SKILLS

LANGUAGES

TypeScript, JavaScript

DESIGN SYSTEMS

Storybook, Tailwind CSS, Figma tokens, Radix UI, DevExtreme

AI & AGENTIC TOOLING

Claude Code · Model Context Protocol (Figma MCP) · Agent Skills · Subagents · custom audit agents · AI-assisted scaffolding · AI code review · WCAG audits

FRAMEWORKS

React 18, Next.js, Vue.js, Nuxt, Vite

TESTING & STATE

Jest, Cypress, React Testing Library, XState, TanStack Query, Redux

— EDUCATION & TRAINING

AI Fluency & Claude certifications

Anthropic Academy · 2026 · AI Fluency: Framework & Foundations · Claude 101 · Claude Code 101 · Claude Code in Action · Introduction to Agent Skills · Introduction to Model Context Protocol · Introduction to Subagents

Master in Design and Art Direction

EsDesign — Universidad Internacional de Valencia · 2018–2019

Epic React

Kent C. Dodds · 2022

English C1

International House · 2008–2016

Fullstack Developer Bootcamp

Upgrade Hub · 2020–2021

Degree in History of Art

Universidad Complutense de Madrid · 2011–2015
